The Assignment Planner is available from the “Assignments” tab in the primary navigation.

The Assignment Planner is the primary place for parents to see an overview of their children’s upcoming assignments. The Planner shows all assignments across all classes in a timeline view for each of the parent’s children.

By default, the Planner only displays each assignment on the day that it is due. It is possible to view a preview of assignments before their due date. Click on the “Class Name” to expand that row. This will reveal upcoming assignments. Assignments will be displayed on each day starting on the date they are assigned until their due date.

Clicking on an assignment will bring up the preview window with the assignment instructions and related file attachments.
