If your camper will be absent from camp, please contact Molly Martin via email at molly.martin@brownell.edu or contact the main office before 9:00 am at 402.312.6337.

Injury

Should your camper become injured at Brownell Talbot, prompt care will be given. Routine scratches and bruises receive common first aid. If a more serious injury should occur, the parent/guardian or emergency contact will be notified immediately.

Sunscreen

Campers may spend time outdoors and are exposed to the sun. Staff members will have spray sunscreen with them at all times to spray campers if needed, unless due to allergies, your camper needs special sunscreen and must apply it themselves. Please indicate allergies on your health form and email Molly Martin at molly.martin@brownell.edu.

We also encourage all campers to bring their own bottle of sunscreen, clearly labeled with their name so they may reapply at break points throughout the day. Camp staff are permitted to help campers apply sunscreen; however, we encourage you to teach your camper how to apply their own. Staff will assist and supervise campers in reapplying sunscreen to exposed skin prior to outdoor activities. **For campers that require more frequent application of sunscreen, parents must provide written instructions on how often their camper is to apply their sunscreen.**

Staff will make every effort to watch campers for sunburn, but cannot be responsible for campers who do not have sunscreen, have a fair complexion, or forget to apply sunscreen. We recommend that you:

- Apply a layer of sunscreen to campers before they arrive at camp.
- Providing campers with enough sunscreen (in a sealed container) to take with them for applications later in the day.
- In addition to sunscreen we recommend sending your camper with a sunhat.

SWIMMING

Recreational Free Swim

In some cases, campers may have an opportunity for free, recreational swimming in our indoor pool. This will always be supervised swimming. We will never force a camper to get into the water, but we do expect all campers to change into a swimsuit when we go to the pool. **Campers in kindergarten and below will NOT go to the swimming pool.**

General Safety Procedures

Safety is the number one priority while at the swimming pool. Campers will always be supervised in the water. While at the aquatic area, campers must remain within eyesight of staff at all times. Campers are expected to follow all pool rules while in the pool area. Campers will not be permitted to leave the aquatic area with anyone other than camp staff. This ensures that all campers are accounted for and keeps consistency within our camping policies and procedures.

Our staff members and lifeguards also conduct 'Buddy checks,' this is done during our break times at the pool. All campers and staff exit the

pool and sit on the deck with their buddies hands in the air. Counselors come around and count to make sure they have everyone in their cabin. Once lifeguards have a thumbs up from all of the counselors the Buddy Check is over. The rules of the buddy system are as follows:

- If your buddy goes to the bathroom, you go with them.
- If your buddy is in the shallow end, you are in the shallow end.
- If your buddy is not swimming today, you are not swimming today.

Campers are allowed to trade buddies at the beginning of each day. Counselors must know who the buddy pairs are before swim time starts. This ensures that when a buddy check is called, we have not only counselors but campers keeping everyone accountable.

Deep Water Test

Campers who wish to go in deep water and jump off the diving board must complete a Deep Water Test. This consists of swimming the length of the pool (25 yards) unassisted, tread water for one minute, turn around in a full circle and find an exit, and be able to exit the water without using the ladder.

DISCIPLINE PROCEDURES

In order to ensure safety to all campers and staff, Brownell Talbot's Camp Discovery will follow the below discipline policy. To facilitate a safe, secure, fun environment for all participants attending Camp Discovery's activities the following policy has been implemented. This policy is not intended to be activated for minor "misbehaving" infractions. On a daily basis, we will work with campers who are having a "bad day." Those types of behaviors, where neither malice nor destructive outcomes were intended will continue to be addressed at the supervisor/camper level. Redirection and, in some situations, loss of choice activity will continue to be the discipline implemented.

The CAMP DISCIPLINE POLICY will be activated when:

- The number of minor infractions has been excessive.
- The behavior constitutes a violation against other campers or adults, including unwelcome intentional touching or grabbing of another camper, explicit and offensive verbal remarks (either sexual in nature or general taunting), name calling, vulgar or identifiable unacceptable language, or other verbal or physical conduct in violation of Camp Discovery's Code of Conduct.
- The behavior constitutes a violation against Camp Discovery's or other camper's property.
- The behavior constitutes a safety issue either for the camper themselves, other campers, or staff. In the event this policy is activated for any

camper, written documentation will be kept by the camp director of all applicable dates, decisions and agreements (including a plan of action if needed).

Camp Discovery's FORMAL DISCIPLINE POLICY includes:

- The first serious offense that is significant in nature to bring to the attention of the camp director, will result in a private discussion between the camp director and the camper. The camper will also be removed from the counselor's choice of activity for the day. The parent will be notified of the negative behavior and will be advised that if the same or related behavior is repeated, a parent conference will be required. The director will notify the Executive Director.
- If the behavior continues, the camper will again be removed from the group activities and the parents will be notified of the need for a parent/camper/director conference **before the camper can return to the program.**
- If the behavior still continues, a parent conference will again be required, (either with or without the camper at the parent's discretion). The camper may be suspended from the program for a period of time up to three days (at camp director's discretion). The camper will then be allowed to continue in the program only after the camper director and parent have prepared and agreed upon a plan of achieving acceptable behavior in the camper.
- If, after all of these steps, the behavior continues, the camper will only be allowed to continue in the program if a professional counselor is involved (at the parent's expense) in modifying the negative behavior. At this point, the professional will be asked to recommend a time frame for compliance based on the situation. If a professional is not brought in, or the time frame set forth is expended, the camper will be expelled from the program with a date for re-entry set by the camp director. Under extreme circumstances or in situations when that camper or other camperren's safety is at risk, the camp director has the authority to ask a camper to leave the program without following the above procedures.

Suspension and Termination of Camper

Safety and respect are considered key to the success of our program. Campers who violate camp policies in these areas are subject to suspension or termination from the camp. Parents/guardians will be communicated with before it reaches this level.

Grievance Policy

Any family or camper who does not feel they have been given due process is asked to adhere to the following guidelines:

- The camper and/or parent/guardian should first speak with the camp leader of the class/activity involved. Most issues should be resolved at this level.
- If the explanation provided by the camp leader is not satisfactory for the camper and/or parent/guardian, they should then meet with the camp director.
- Please note, under extreme circumstances and/or situations when a camper or other camper's safety is a risk, the camp director, with agreement from the Head of School has the authority to ask a camper to leave the program.
